

Mayor's report to Council

May 8th, 2015

Good afternoon,

Since my last report to Council I have attended the family Health Team meeting in Deep River on May 1st. We reviewed the FHT annual report to the Ministry of Health. This report is basically the comparison of how we did against the plan submitted with last year's report. We are on target. The clinic is now full and is not accepting any more patients. At present, there are no plans to seek any more doctors unless there is significant patient demand. Plans are well under way for the additional building and construction should be starting early this summer

On April 29, I attended County Council meeting in Pembroke. There was a delegation by Mr. Todd White, executive director of Canadian Radiocommunications Information and Notification Service (CRINS). This is a group of Canadian Municipalities and offers free services to member Municipalities to assess communication tower applications.

It is my recommendation that we join this organization.

This ends my report to Council.

Thank you.
