RECEIVED
JUN 05 2012
18.

Dear Ms. Reith:

I would like to inform you that I have approved a grant in the amount of \$700 for your organization's project under the Celebrate Canada Program.

A cheque will be sent to you under separate cover. Please note that any payment is subject to the appropriation of funds by Parliament and to the budget levels of the Program.

In disbursing these funds, I am confident that you and your organization will encourage Canadians to celebrate their symbols, values, heritage and cultural diversity. I would ask, therefore, that every effort be made to ensure that the Canadian flag is displayed proudly during your events.

Following the completion of your activity, you are required to complete the Final Activity Report that can be found at the following Web link:
<http://www.pch.gc.ca/special/canada/finalreport>

Once completed, you can transmit the form by scan and email, fax, mail or courier or deliver it to your Canadian Heritage Regional Office no later than August 31, 2012.

In receiving funding from the Celebrate Canada Program, you agree to implement the Official Languages measures as indicated in your funding application.

I congratulate your organization on its project and extend my best wishes for the success of your celebrations.

Sincerely,

The Honourable James Moore, P.C., M.P.

SUBJECT: Mining Lease Request - Mining Claims SO 4259853, SO 4259854, SO 4259857, SO 4259858, SO 4259859, SO 4259860, SO 1192304, SO 1192305 and SO 1192306 located in Maria Township (G-1387), Southern Ontario Mining Division

The recorded holder of the above mentioned mining claims has requested a surface and mining rights lease pursuant to Section 81 of the Mining Act. A location map is enclosed for your perusal.

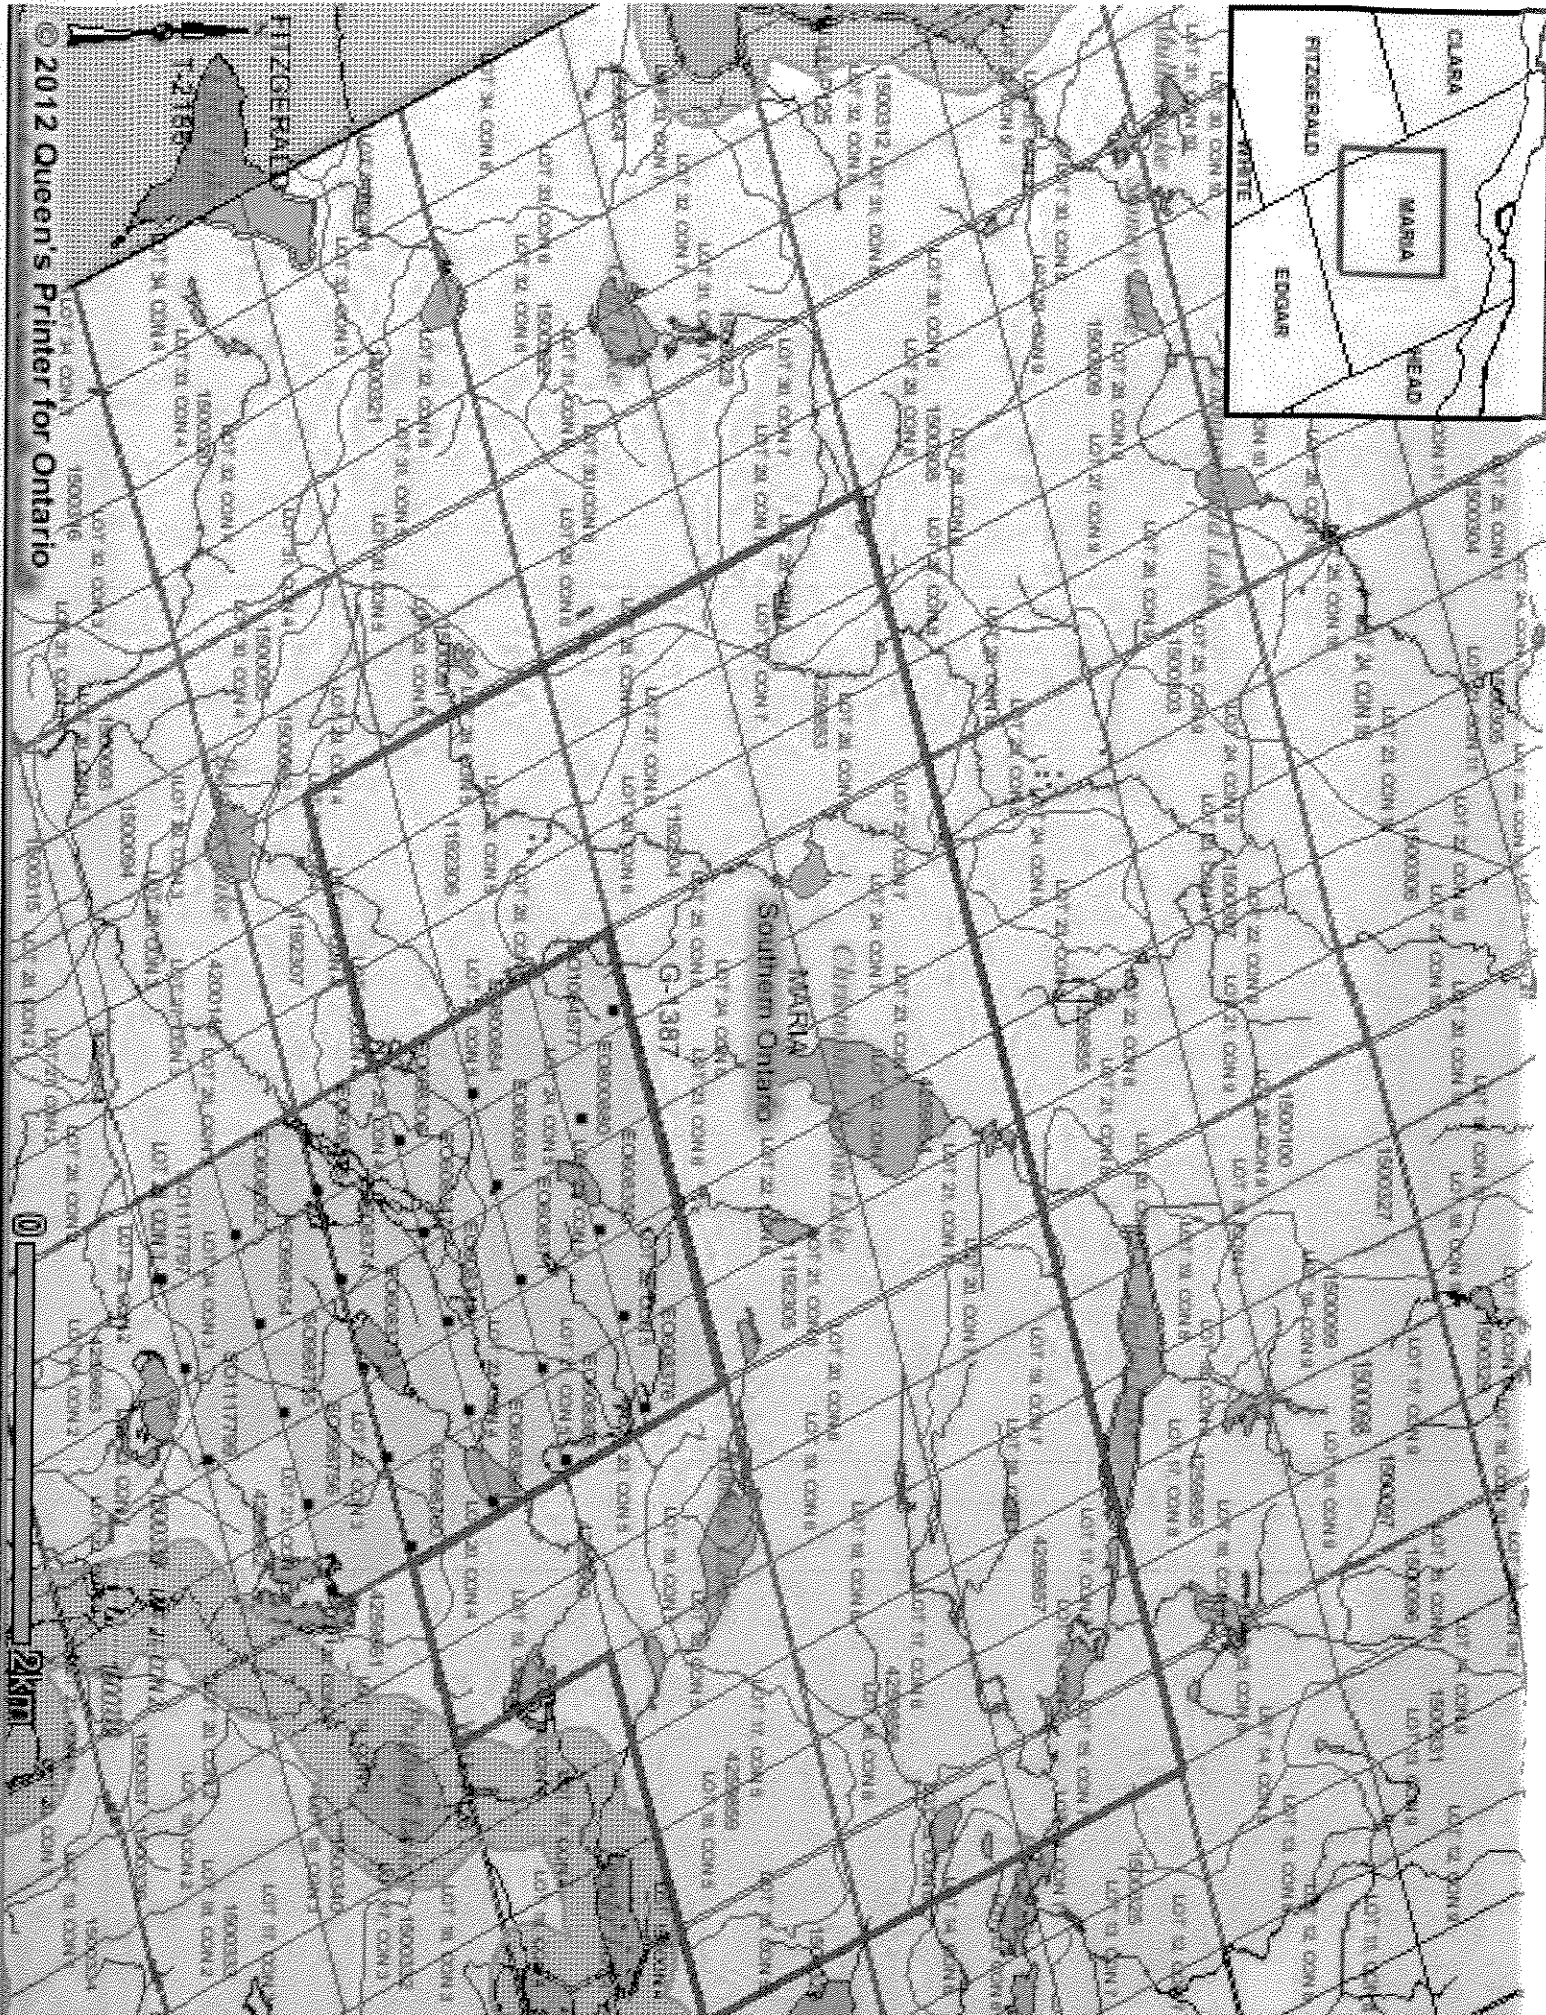

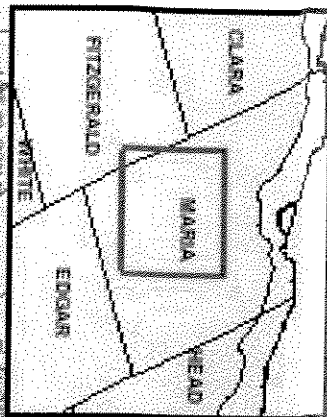

The purpose for the lease is for mining upon and under the said lands for a term of 21 years. The lease will not confer upon the lessee any right to cut or remove any timber or trees standing. No surface mining operations will be carried on within 150 feet of the limits of any highway or road maintained by the Ministry of Transportation. Nothing shall prevent or interfere with the free use of any public or travelled road or highway crossing the said premises. Furthermore the lease will be subject to the provisions of the Mining Act, the Forest Fires Prevention Act, the Ontario Water Resources Act and the Lakes and Rivers Improvement Act.

Could you please advise this office of any concerns that you may have regarding the lease issuance. If possible, we ask that you provide comments by **May 30, 2012**.

If you have any questions regarding this correspondence please contact Julie McFarling, Land Technician, at (705) 670-5738.

Sincerely,

Tony Scarr

Mayor Bob Sweet
BOX 69
1111 Victoria St
Petawawa, ON K8H 2E6

Dear Mr. Sweet:

Renfrew County is a wonderful place with much to offer, a place we like to call home. The potential for the development of Renfrew County is very great, and I'm sure every municipality in this county, along with the City of Pembroke, would love to see an increase in commercial, industrial and residential development. Sadly, Renfrew County has been labeled as "backwards" and "redneck" by many outsiders and even some people living in Renfrew County. This is most certainly not a stereotype that I believe, but the reality of the situation is that if Renfrew County would like to attract young families, we need to start doing a lot more collectively to repudiate this stereotype. We can no longer rely on CFB Petawawa and AECL to attract families to this area. We need to become a progressive county.

According to city-data.com from 2001 – 2006 Ontario's population grew 6.6%, whereas Renfrew County's population grew by only 3.0%. In 2006, the median age of our population in Renfrew County was 42.2; the median age for Ontario was 39.9. As of 2006, 74% of people age 15 and over in Renfrew County had high school level education or greater, only 11% of people living in Renfrew County had a university degree. As of 2006, 78% of Ontarians had a high school level education or greater, 20% of Ontarians had a university degree. Not only does Renfrew County have an older population, but we are behind in growth and education. The solution to this problem is to attract business, young families and educated people to this area.

In order to attract business, young families, and educated people to this area, we need to overcome the labels applied to Renfrew County such as "backwards" and "redneck". We need to prove not only to people coming to Renfrew County, but to our fellow citizens that Renfrew County is progressive.

We have taken some steps in the right direction. As a 17-year-old youth attending Fellowes High School, I can assure you that there are many intelligent young adults who will be leaving Fellowes to head off to university, college, an apprenticeship or the workforce this year. Sadly, many of these fine young adults aspiring to be doctors, nurses, lawyers, engineers, geologists, tradesmen/tradeswomen etc... have no interest in coming back to Renfrew County.

Mr. Sweet, over the past few weeks I have been spending time on the picket line with CUPE Local 4989 Ontario Works staff and I am outright appalled by the treatment of these 22 workers, 20 of whom are women. I have spoken with them and I cannot believe that the County of Renfrew is attempting to take the benefits away from these vital public sector employees.

First of all, I believe that the County of Renfrew needs to review by-law 16-12, passed on the 29th day of March, 2012. Article 1 – Part A of this by-law clearly outlines the benefits that all employees of Renfrew County are entitled to. Some of the benefits listed in by-law 16-12 are benefits that these 22 workers are being refused. It is also a point of interest that according to Section D of the County's corporate policies, Short Term Disability and Long Term Disability is something all non-unionized employees are entitled to.

Mr. Sweet, why are the unionized employees of Ontario Works not being offered the same benefits that are offered to all non-unionized employees? Unions have been a part of our society since the 1860s. It is very archaic behaviour on the part of Renfrew County to treat workers poorly simply because they are unionized. If Renfrew County wants to become more progressive, they need to be prepared to work with unions to create a fair yet fiscally responsible contract for their unionized employees.

I am not convinced that Renfrew County is cutting the benefits of these 22 workers in an attempt to become more fiscally responsible. In 2012, the County budgeted for \$35 343 216 in spending. It does not take a financial advisor to figure out that cutting the benefits of 22 workers will not really have an effect on the County's \$35.3 million bottom line.

I am also very disappointed that CUPE Local 4989 was denied their request to speak at the May, 30, 2012 County Council meeting. This is very primitive thinking, to not even be willing to listen to the employees' side. If County Council truly cared about these 22 workers or the 2000 clients they serve, surely they would have granted a representative of CUPE Local 4989 permission to speak at their meeting.

Another aspect of this strike is the 2000 clients who are no longer able to receive guidance and assistance from their respective workers. Although they continue to receive social assistance, they need the staff at Ontario Works to provide them with the services they require. Nobody wants to be on social assistance and these workers play a vital role in helping these people, so that their time on social assistance may be brief. When thinking about the current lack of services being provided to this vulnerable group of the population a Chinese Proverb comes to mind. "Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime." Simply writing cheques to the clients that Ontario Works serves will only help their situation temporarily, whereas the counselling and advice offered by the staff at Ontario Works could permanently improve their circumstances.

I do not understand why the County of Renfrew is cutting the benefits of these 22 workers, but this kind of unjustified draconian behaviour will not be attracting business or families to this area. The County of Renfrew needs to portray itself as a progressive county in order to shed itself of its current derogatory labels. How will the County of Renfrew ever complete this feat if it is not even a fair employer? Although this is only one issue, this is the type of behaviour that deters people from coming to Renfrew County. The Ontario Works staff members are simply asking for the same benefits as the non-unionized County employees.

In closing, I am not a socialist radical, in fact I have progressive conservative values, but the antediluvian mandate to target and cut the benefits of 22 employees is completely unethical. Why were these 22 employees targeted? The negotiating committee has to answer to County Council. County Council has the power to end this strike that should not have even happened in the first place. Bargaining should be fairly easy when the unionized workers are not asking for any more than what the non-unionized workers have. I urge you and your colleagues to seriously review the unreasonable mandate to cut the benefits of the Ontario Works staff. If County Council wishes to end the negative labels applied to this area, they can start by ensuring that County employees are being treated fairly. Until Renfrew County catches up with the times, young families and businesses will continue to be repulsed by the County of Renfrew.

Sincerely,

A handwritten signature in cursive script, reading "Robert M. Murphy". The signature is fluid and stylized, with the first name "Robert" being more prominent than the last name "Murphy".

Robert M. Murphy

REPORT: AMO Board Meeting – Spring, 2012

/S. Freeman, County Caucus

Board Meeting

- AMO Conference – Ottawa - August 19-22, 2012
- AMO Conferences confirmed 2013 – Ottawa; 2014 – London; 2015 – Niagara Falls; 2016 – Windsor; 2017 – Ottawa.
- The AMO website will receive a make-over the scheduled launch is August 2012.
- AMO Board undertook a bylaw review that approved a \$1000 a month honorarium for the President and clarified the language around vacancies (mid-term) for President and Secretary Treasurer.
- Deputy Minister of the Ontario Ministry of Agriculture and Rural Affairs (OMAFRA), Fareed Amin, presented the Feed-In Tariff Program Two Year Review's recommendations, which touched on six strategic areas, including: the province's continued commitment to clean energy, streamlining processes and creating jobs, encouraging greater community and Aboriginal participation, improving municipal engagement, reducing FIT prices to reflect lower technology costs and expanding Ontario's clean energy economy. The role of municipal governments and improved consultation was discussed. The report is on the Ministry of Energy's website. Mr. Fareed agreed to work with AMO as we requested enhanced municipal engagement to address our local concerns.
- We received a presentation from: Socially and Environmentally Responsible Aggregate (SERA) which is a third-party, voluntary certification system for the aggregate sector and representatives for providing third party verification against standards. SERA is looking to engage with municipalities and other markets to encourage their interest for responsibly sourced aggregate materials in procurement activities. They want to look at "Best Practices Certification" and standards that go beyond the current regulations. Their goal is "Green Gravel" certification by 2015. They need more input from the East and North, so if you or you know of those who are interested in working on this concept, please get in touch with SERA.
- Antoni Wisniowski, the new(ish) President of MPAC shared its 2012 Strategic Priorities as well as an update on the 2012 assessment process. The parties discussed matters related to new development assessment timelines, remuneration lists and some of the trends and impacts of re-assessments and the appeals process. Mr. Wisniowski was MPAC's Chief of Technology and is developing a new 4 year strategy to improve the taxpayer's experience and increase customer engagement. He has been asking the government for technical changes including those around "Common Lands". Trends include market increases in residential (18%), condo sales (20%), with a 15% increase overall across the province but with obvious regional differentials. Waterfront is volatile and declining, commercial & industrial beginning to return to previous years but still volatile and variable. Farm markets have outpaced everything with increase of 40% in parts of the province, this for farm to farm sales not farm to development. MPAC is working with AMCTO to improve the voters list for 2016.

- Key elements of Private Members Bill 8 - *Ontario One Call Act*, were considered and the Board directed AMO to prepare a submission for the Standing Committee. The Bill would move from a voluntary participation to a mandatory one where municipal governments would be required to be paying members of a joint public and private sector Board. The Bill would change the way that the public and contractors contact municipalities to request the location of underground infrastructure, while leaving municipal operations once a request is received essentially unchanged. A five-day mandatory turn around to fulfill requests is also included. The Bill does not take into account current circumstances in northern Ontario.
- The Board received an update on various municipal waste issues including a recent meeting with the Minister of Environment Minister Bradley (who seems to be very responsive to our concerns) on Waste Management Extended Producer Responsibility, Blue Box Funding and Municipal Hazardous + Special Waste (MHSW) issues.
- A submission responding to the second round of Social Assistance Review discussions was approved by the Board. This builds on AMO's initial submission, which can be found on our website. Hopefully all of you who administer these programs have been briefed by your staff.
- The Ministry of Transportation has established a committee to explore ways to improve the collection of POA fines and meetings have occurred and AMO remains hopeful that a solution will be available later this year. Additionally, AMO met with representatives from the Ministries of the Attorney General and Municipal Affairs and Housing on the need for reform on Joint and Several Liability.
- Staff provided an overview of the current government and Private Member bills as introduced in the Ontario Legislature that have a municipal interest. As an observation, few MPPs reach out to AMO to discuss their Private Members bills before they are introduced, which means the proposed legislation can create consequences for municipal responsibilities. Please look at the status of all bills which are available on the AMO website in the Policy Issues section.
- Caucus reports:
 - Rural Lens has been well received at conferences and has been used already and will be as part of presentations to government.
 - Huge concerns with the demise of Northland rail, not only the loss of 1000 jobs but the message to industry re. infrastructure in the North. Frustration by our Northern colleagues at the lack of consultation and consideration.
 - Concerns with 60,000 jobs at risk in Southern Ontario due to withdrawing support to the horse racing industry.
 - And in our ongoing general frustrations, incredulity as to new regulations

MAY 07 2012

Ms. C. Anne Greentree, B.A., CMO
Deputy Clerk
The Municipality of Clarington
40 Temperance Street
Bowmanville ON L1C 3A6

Dear Ms. Greentree:

Thank you for your letter of December 20, 2011 informing me about the Council of the Municipality of Clarington's Resolution (#GPA-720-11) regarding regulations for the movement of commercial fill. I apologize for not replying sooner.

Over the past year, ministry staff have met with various stakeholders, including municipalities, roads associations, waste associations, professional institutions, and other provincial partners to discuss the current regulatory interpretation regarding soil movement and to discuss future soil management options.

Based on these discussions and the feedback we have received, the ministry is in the process of developing guidance related to soil management activities which focuses on commercial fill operations. The proposed guidance intends to detail the ministry's expectations for those who manage excess soils to help ensure a consistent approach across the province. The proposed guidance also encourages reuse for beneficial purposes to prevent excess soil from being unnecessarily disposed of in landfills.

Creating opportunities to renew infrastructure and promote redevelopment opportunities benefits Ontario's economy. Cost-effective, sustainable soil management practices are important to maintaining a healthy economy and a healthy environment.

Ministry staff will continue to develop guidance related to soil management activities in the province. Any further comments your municipality would like to provide would be welcome. If your office requires additional information about the work that is underway in your area, please contact Ms. Kathleen Anderson, Assistant Director of the ministry's Central Region Office at 416-326-3466.

Thank you, again, for bringing Council's resolution to my attention.

Yours sincerely,

Jim Bradley
Minister

BY EMAIL

June 5, 2012

Dear Executive Chair Tanaka:

RE: Amendments to the Assessment Review Board Rules of Practice and Procedure

The City of Toronto has had an opportunity to review the amendment to the Board's Rules to award costs.

All municipalities are statutory parties to *Assessment Act* appeals. The Board sends to the City notice of all assessment appeal hearing events; in the normal course, however, the City, like many other municipalities, opts not to participate in all of these appeals. Thus the City requests that a practice direction be added to Rule 144 clarifying that if a municipality is, or has not, participated in an appeal, then costs will not be awarded against the municipality. An example of the potential issue is Rule 144g, paragraph (a), where the Board, in determining if a party has acted unreasonably, may consider "a party failing to attend a hearing before the Board or to send a representative when properly given notice, without contacting the Board and other parties to the hearing."

Thank you,

Angus MacKay

May 31, 2012

Mr. Gary McNamara
President
Association of Municipalities of Ontario
200 University Ave., Suite 801
Toronto ON M5H 3C6

Dear Mr. McNamara:

I am writing to inform you that the Minister of the Environment has approved changes to the Consolidated Municipal Hazardous or Special Waste (CMHSW) program submitted to him by Waste Diversion Ontario (WDO). As a result, effective October 1, 2012, the CMHSW program will include only those wastes known as Phase 1. Please be advised that Stewardship Ontario (SO) will continue to manage the Phase 2 and 3 wastes during the 120 day implementation period for the changes, with municipal costs covered until September 30, 2012. SO will be providing information to municipalities regarding the wind-down period.

To fulfill the government's commitment to fund the continued municipal collection and management of six selected household hazardous wastes (i.e. rechargeable batteries, portable fire extinguishers, fluorescent light bulbs and tubes, mercury containing devices, pharmaceuticals and sharps), a new program delivered by a non-profit organization will begin on October 1, 2012.

The new program will cover eligible municipal costs associated with managing the six wastes, with no gap in funding between the wind-down of SO's program and the start of the new program.

The Ministry would also like to work with the Association of Municipalities of Ontario (AMO), the City of Toronto, WDO, SO and other stakeholders, to ensure that there are coordinated communication efforts that will support municipalities in their diversion activities during the transition period, including those municipalities who decide to continue to provide waste diversion services after October 1, 2012 for the other wastes (Phase 3) that were included in the CMHSW program.

.../2

In addition, the Ministry continues to consider options for addressing the ongoing collection of pharmaceuticals and sharps by pharmacies and initial discussions with the pharmaceutical sector are being scheduled.

Further, I am pleased that the Ministry and AMO recently agreed to establish a joint action group on waste that will identify some key opportunities for achieving increased waste diversion and municipal cost reduction. I look forward to working collaboratively with our municipal partners on these important objectives. I understand that staff from our organizations have recently met to discuss the action group and next steps.

Thank you for continued commitment to waste diversion in Ontario.

Sincerely,

Paul Evans

Membership Application 2012

We are pleased to invite you to become a member of
Family and Children's Services of Renfrew County

Your Agency

Family and Children's Services of Renfrew County, as a multiservice agency, has supported and enhanced the lives of children, youth and families in the County of Renfrew by providing essential, mandated and voluntary services and programs; Child Welfare, Developmental Services, Early Years, Kumon, and Family Visitation and Exchange.

An informed public symbolizes an agency that is accountable and effective. By your membership in this agency, you express your concern for children, and your wish to influence the way services are delivered to children and families in this county.

Our Membership

Membership entitles you to vote at the Annual General Meeting, gives you an updated list of board members, a copy of the Ontario Association of Children's Aid Societies Journal (quarterly), the Winning Kids newsletter and other relevant agency publications.

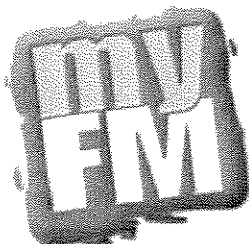

A one year membership is only \$10.00. To become a member, please forward your cheque made payable to "Family and Children's Services of Renfrew County" by June 18, 2012 to:

Debbie Gervais, Executive Assistant
 Family and Children's Services of Renfrew County

Subject: OPP - myFM Radio (Arnprior-Renfrew-Pembroke) SUMMER SAFETY PROMOTION

Att: Tammy Stewart

OPP – myFM Radio SUMMER

SAFETY

Summer is a time for travel, fun, and recreation which culminates with a higher percentage of people being much more active and exposed to injuries and unfortunately fatalities. This is your opportunity to team up with the OPP Police Services and show the world, that as a member of the Ottawa Valley business community, your business, service, or municipality cares about the well being of all during the vacation season, at a time when our population increases over 100%.

As a promotional partner in this OPP – myFM Radio Summer Safety Promotion, you get to send a consistent Summer Safety Message to the thousands of myFM Radio listeners, plus be a part of a continuous Radio Campaign to ensure your business is “top of mind”.

The OPP Police Services have voiced a series of Summer Safety Messages (Driving Under The Influence; Boating Safety; Aggressive Driving Safety; Motorcycle Safety; Child Car Seat Safety; Seat Belt Safety; Bicycle Safety; Pedestrian Safety; etc.) and you may select your personal favorites by simply underlining or circling same. (You may invest in 1, 2, 3, 4, or 5 weeks.)

Business Transformation at Ontario Power Generation

Ontario Power Generation is committed to being the province's low-cost electricity generator of choice. I'm proud of the fact that we help moderate electricity prices. It's a role we plan to continue so we're taking steps to further enhance our efficiency and reduce spending.

We have launched a company-wide transformation to help achieve business planning targets for 2012-2014 that will save the company approximately \$200 million over three years. These savings include a headcount reduction of 1000, which we'll endeavour to manage through attrition. We're looking for further efficiencies and expect additional future headcount reductions. Business transformation also includes a leaner organization structure – one example being the merger of our Hydro and Thermal businesses.

In addition to business transformation, OPG has been working at reducing costs on a number of fronts. Here are a few examples:

- The company developed a ground-breaking financing structure for the Lower Mattagami Hydroelectric project that will result in savings of more than \$40 million during construction.
- We will achieve savings of over \$80 million related to our outsourced Information Technology services agreement over the 2010 to 2015 period.
- Our Thermal business also achieved cost reductions of approximately \$80 million since 2009 through advanced closure of units, maintenance program efficiencies, improvements to work programs and project execution, and through streamlining work processes.
- Since 2009, Nuclear has implemented a top down business planning process and has undertaken extensive benchmarking to identify opportunities for improving financial and operational performance. From 2009 to present, Nuclear Operations reduced staff by over 500, primarily through attrition, resulting in annual savings of approximately \$70 million.

We believe a transformed OPG with a sustainable cost structure will help us attract more investment for generation and repowering projects, continue our focus on safety and reliability, allow us to continue moderating electricity prices, and ultimately help us deliver more value to Ontarians.

Our efficiency and cost-savings efforts also provide a solid foundation from which we can incorporate any outcomes from the Province's review of the electricity sector announced in the recent Budget. We believe we've got a good story to tell and look forward to participating in any activity that leads to opportunities for improving efficiencies.

Having completed the planning for business transformation, we have now started the implementation phase. In the coming months you may begin to notice some changes as we execute on our commitment to further improve our efficiency. These efficiency activities are being carried out province-wide.

I will provide further updates on our efforts as the transformation work continues. In the meantime, feel free to contact those you work with most closely at OPG if you have any questions as we move forward together.

May 30, 2012

Dear Reeve Stewart;

We do hope this email finds all is well with you and your community.

Certainly you've seen that the Federation of Canadian Municipalities (FCM) has released its annual State of Cities and Communities Report. Chapter Four takes a good look at policing; the notes below are from the Executive Summary.

FCM State of Cities and Communities Report
Chapter 4: The State of Policing and Public Safety

There is nothing more important to Canadians than the safety of their families and communities. Despite declining crime rates, however, the costs of crime measured in lives and property remains staggeringly high.

Canadians have a right to know that governments are making the very most of every dollar they invest fighting crime and its causes, properly funding their policing and public safety duties, and tearing down silos between federal, provincial, and municipal police forces.

Canada's policing system, however, is badly in need of repair. During the past 30 years, an unsustainable share of Canada's policing duties has been shifted onto municipalities, either through direct downloading or the inability of an overburdened RCMP to fulfill its full responsibilities.

This puts a strain on the limited fiscal capacity of municipalities. As more money is spent on policing, there are fewer resources available to address other services that contribute to safe and healthy communities. This is not sustainable for municipalities or for property taxpayers.

The FCM findings are similar to those of the Mayors Coalition for Affordable Sustainable Provincial Policing. This independent verification that we are all on the right track when it comes to the need for change is welcomed and certainly adds value to our efforts.

Link to the full report is [here](#).

Sincerely,

Mayors Coalition Steering Committee

The Honourable Deb Matthews, M.P.P.
Minister of Health
Ministry of Health and Long-Term Care
10th Floor, Hepburn Block
80 Grosvenor Street
Toronto, Ontario M7A 2C4

Dear Minister:

RE: MO-16-12 - Universal Influenza Immunization Program, 2011-2012

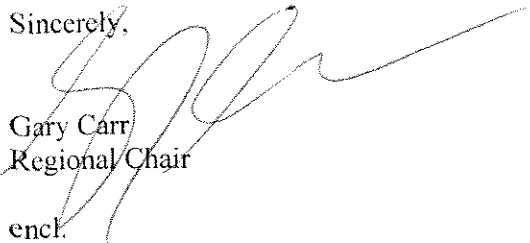

This will confirm that the Council of the Regional Municipality of Halton, at its meeting held Wednesday, April 18, 2012, adopted the following resolution:

1. THAT Report No. MO-16-12 re: "Universal Influenza Immunization Program, 2011- 2012" be received for information.
2. THAT the Regional Chair send a letter to the Minister of Health and Long-Term Care requesting that hospital staff influenza immunization rates become one of the reportable patient safety indicators, and that the letter be copied to AMO, and to the Clerks of other regional and single tier municipalities in Ontario for their information.

Attached please find a copy of Report No. MO-16-12 for your information.

If you have any questions please contact Dr. Bob Nosal, Commissioner and Medical Officer of Health.

Sincerely,

Gary Carr
Regional Chair
